MIB Engineers

Survey and Inspection Services

MIB Engineers conduct Professional Machine Surveys for equipment users. Our engineering survey services include the following:

- ◆ **Machine Failure analysis**
- ◆ **Machine Siting analysis**
- ◆ **Machine Condition analysis**
- ◆ **Metrology**
- ◆ **Pump and Mechanism upgrades**
- ◆ **Seal leakage resolution**
- ◆ **Hydraulic machines and Power Unit expertise**
- ◆ **Reverse Engineering and 3D Modeling**
- ◆ **Corrosion analysis**
- ◆ **Machine maintenance planning**

For problem investigation and machine upgrade projects, MIB has the expertise to help you improve your machinery lifetime and efficiency. MIB engineers will help you prevent breakdowns or production stoppages.

Call MIB Engineers for all your machine survey and engineering consulting needs.
